

Non-Oily Base Paint, Oil & Grease Remover

“ChemDuo”

A non-oily base paint, oil, and grease remover that safely removes machine/motor/salad/cooking oils, cosmetics, ballpoint pen ink, gum, rubber and various resins, as well as oil and latex paint.

- *Safe non-oily paint, oil, grease, and lacquer remover*
- *No guesswork; flushes wet or dry*
- *Avoid, re-runs; great for post spotting and touch-up*
- *Excellent general utility spotter*
- *Contains no chlorinated hydrocarbons; environmentally acceptable*
- *Contact us for pricing and available sizes*

DIRECTIONS

Removes crayon, ink, lipstick, nail and shoe polish, grease and oil stains, and more. Wet out stain with solvent, then apply ChemDuo®. Blot loosened stain with clean, dry cloth; repeat as necessary. For layered stains, work gently with spatula or spotting brush. Apply heat, if necessary, until stain loosens. Then flush wet or dry. Mix 1:1 ChemDuo® with Neutral Lubricant® as a general utility spotter.
